Shiny Lyonia, *Lyonia lucida*

Our Mission:

Landscape & Natural Resources and the Arboretum support the mission of UCF through a comprehensive outdoor laboratory that creates opportunities for relevant, experience-based learning, urban ecology research, and human connection with ecosystems and landscapes. We seek to enrich the community by creating and maintaining an inviting outdoor environment, providing high quality service for operational activities, and generating research and educational initiatives that guide stewardship of natural resources. Our inclusive program supports regional, state and global efforts to develop sustainable urban environments

LANDSCAPE & NATURAL RESOURCES

Flowers of the Lake Claire Loop Trail

Office Hours:

Monday - Friday
8am-5pm

Natural Land Hours:

Open 7 days a week from sunrise to sunset

About the Trail

The Lake Claire Loop Trail is a 1.5 mile loop that wraps around Lake Claire. It's a great trail to spend a morning or afternoon walking, and offers many opportunities to spot beautiful native vegetation, and even some animals early in the morning.

Ecosystem types within the trail

Due to the variation in elevation in different points of the Lake Claire trail, six different types of ecosystems exist:

- Basin marsh
- Sandhill
- Mesic flatwoods
- Scrubby flatwoods
- Depression marsh
- Baygall

Flowers that Frequent the Trail:

Cow pea
Vigna luteola

Long-leaf violet
Viola lanceolata

Rosersush
Lygodesmia aphylla

Venus' looking-glass
Triodanis perfoliata

St. Peter's wort
Hypericum tatarpetalum

Red Basil
Calamintha coccinea

Blackberry
Rubus cuneifolius

Sundew
Drosera capillaries

Mimosa
Schrankia microphylla
